Raise the standards

LETS DESCRIBE ...

I've got an adjective that just fits you

The objective behind conducting activities is to enhance the language skills of the students. Activities boost the creativity of students, help in expressing their thoughts, develop communication skills and also support reading development. The students of Grade I were engaged in a fun Adjective activity. Teachers had written few describing words on the board and explained the meaning of each word. The students were then asked to choose a describing word which exactly goes with their name and also with their personality, followed by describing the word on a sash or crown and wear it.

They proudly wore it and took it back home to make their parents feel proud of them.

HOP A LITTLE , JUMP A LITTLE TO LEARN SKIP COUNTING

As a part of curriculum of early primary education, concept of multiplication was introduced to the students of grade I in a very fun-loving method by Hoping and Jumping on numbers written on the floor.

Skip counting is an initial step for multiplication for students of Grade I and to teach them this concept in an easy way, teachers planned for an experiential learning method -skip two numbers and jump and the students jumped on numbers after skipping two numbers till 10 or 20. The activity was to inculcate physical exercise with mindfulness for an experiential learning in fun filled method overall making this activity most enjoyable activity for the students to learn basic multiplication.

Shop! Shop! Shop with Me

It's great for a child to learn about money and the fun way to teach money is by creating a pretend store where shopping and fun converge.

Teachers of grade II arranged a shopping corner in which different toys and few stationery items were labelled with a price tag on each of them. The students were asked to bring pretend money and then go for shopping where the shopkeepers were also the students of Grade II. The students thoroughly enjoyed this activity. Later they were asked to explain what they were able to purchase, how much money they spent and how much money they were left with.

Adding on to this teachers explained that "A penny saved is a penny earned" - that is how important money is in one's life and how important it is to earn and save money.

Finally this activity helped our Johnsonites of grade II to enhance their life skills and money skills in fun learning method and made them future ready students.

FOUNDER'S DAY

Education is the foundation upon which we build our future .So our academic strengths and reputations are just like a well rooted tree spreading its limbs and leaves upwards and outwards. This growth is the result of the years of dedication and single minded commitment to create the distinctive success that we enjoy today. In memory of this Johnsonites celebrated Founder's day to commemorate the birth anniversary of the futuristic visionary late Shri S.R.N Mudiraj the founder of Johnson Grammar educational institutions. Our primary wing of grade I and II celebrated the day by offering flowers and prayer to the excellence. The day reminds and recognizes the efforts of the visionary man who had contributed to the growth and success of the institution. They also prepared beautiful birthday cards and displayed on the learning wall.

CHRISTMAS CELEBRATION

Time to rejoice !!

Christmas is the festival which inspires the spirit of caring and sharing. Christmas celebration was held on 22nd December by the students of the JGS. The school, the corridors and the soft boards were beautifully decorated and the students came dressed in red and white attire. The boys dressed up as Santa and girls dressed up as Angels added charm to the celebration.

The celebration started with an assembly by the Primary students and the students of Grade I and II attended this wonderful assembly where dance, singing and skit performance brought joy on their faces. Right from the conception of Mary to the birth of Jesus a harmonious story was displayed by the students. The event ended with cheerful Christmas greetings as the students danced to the melodious tunes of 'Jingle Bells' and ' We wish you a merry Christmas.' The dazzling entry of Santa Claus added to the joy and excitement of the students. The boundless joy of celebrating the festival was visible on the faces of all the children. It was a joyous and amusing programme for everyone.

The students then made beautiful handouts for themselves like Christmas star, wreath, Santa Claus and carried home cheerfully.
