TEACHING AND MONITORING

" A Good Education Can Change Anyone, But A Good Teacher Can Change Everything".

Learning new content with individual involvement such as discussions, problem solving all the time and finding a way to flip the lessons with the students paves more choices, through reverse learning. The mindset by redirecting away from the teacher and putting more attention on the learner and their learning capabilities. This change of flip teaching increases students engagement by making the learning active and visible with deep discussions .It also hinges on the idea that students learn more effectively with dynamic interactive environment. Student of Grade I &II brought change in the classroom to learn more creatively and provide ample opportunities for active engagement in the discussions. Hence this concept of flip teaching gave priority to all learners enhancing their learning, effectiveness , flexibilities and paving a platform to achieve good results.

Caption: Celebrating And Making Memories Together... Good Bye And Good Luck Farewell Dear Students !!

Teachers of Grade I & II organised a fun time in JGS.....

It's hard to believe that another school year has come to an end. Through good times & bad times, The teachers and students worked hand in hand overcome the challenges with their students to cross the finish line together in class.

The classrooms had a day filled with joyful games .. students and teachers had a wonderful time by playing games like mime game, word building , guess me right, ice & water etc. Further the students were eager to display their own talent like singing and dancing. They also shared their memorable experiences throughout the year with their friends and the class teacher with utmost happiness.

On the other hand the day witnessed absolute celebration when the student's started sharing their favourite snacks like sandwiches, chips , cakes, fruits and many more among themselves and had a day filled with joy.

Finally, the teachers of Grade I & II whole heartedly wished the little Johnsonites “All the very best” for their next academic session!!

“WISHING YOU SUCCESS”

“All the best for your examinations.” “Just take a deep breath and trust in your abilities.” This is how the teachers of Grade I and II motivated their students to rock in their final examinations. Constant and encouragement from teachers and also parents play a vital role during their examinations.

Hence, the teachers guided the students to stay focused and determined during their examinations. Staying calm and confident is the best technique to score excellent marks.

The primary teachers of Grade I and II showered their blessings on the students and handed over a beautiful “All the best” handout to bring confident smiles on their faces.
