

**May Lord Ganesh Give You - A Rainbow for Every Storm, A Smile for Every Tear, A Promise for Every Care, And an Answer to Every Prayer!**

Ganesh Chaturthi is a festival celebrated across the country with great fervor. Lord Ganesh is looked upon as the Lord of wisdom and knowledge. He is also known as "Vighnaharta" the remover of obstacles. The students of Grades I and II invoked the blessings of Lord Ganesh and celebrated this festival by preparing beautiful and adorable idols of Ganesh with clay and Toran as decors with utmost devotion. Teachers imparted the message of eco-friendly Ganesh to help preserve and protect Mother Earth. These activities enhanced their pincer movements and eye-hand coordination. Students also listened to the story of Ganesh, narrated by the teachers and they shared how they were going to celebrate this festival with their family.

## TEACHER'S DAY

**To The Mentor Who Lights The Path To Success With Passion And Care.**

On 5<sup>th</sup> September, schools across the country come alive with excitement and gratitude as they celebrate Teachers' Day, a special occasion to honor the invaluable contributions of educators. The day is observed to commemorate the birth anniversary of Dr. Sarvepalli Radhakrishnan, who believed that teachers play a crucial role in shaping young minds and the future of the nation.

The Teachers' Day celebration was filled with enthusiasm, warmth, and heartfelt gestures. A token of appreciation was presented by the students of Grades I and II in the form of a beautiful and creative activity. The students wrote beautiful quotes for their teachers on paper cut-outs and made a beautiful collage of the cut-outs forming a creative bouquet. They also shared their feelings about their teachers and expressed their love and gratitude through their loving words.

The Teachers' Day celebration was a memorable and heartwarming event that allowed students to express their gratitude and admiration for their teachers. It highlighted the importance of the teacher-student relationship and reinforced the values of respect, dedication, and learning that form the foundation of education.

## FUN WITH ORDINAL NUMBERS-HANDS-ON-LEARNING

In a lively and engaging lesson on ordinal numbers, the students of Grade II explored the concept of order and position using hands-on activities with concrete objects. This practical activity helped students grasp the meaning of ordinal numbers (1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>..) in a fun and interactive way.

Students were asked to begin by arranging a series of small objects in a line on the table. The sequence of toys provided a clear visual for understanding positions, then each student received an ordinal number card and was asked to place it next to the corresponding object in the sequence.

After positioning the cards, students reviewed the sequence as a group, answering questions about the position of each object to reinforce their understanding of ordinal numbers.

Later to deepen their understanding, students rearranged the objects and used the ordinal number cards to place them in the correct order again, reinforcing the concept through practice.

This activity provided students with a tangible way to understand and apply ordinal numbers, enhancing their ability to identify and use these numbers in various contexts.

## WHAT DOES THE SHAPE SAY?

To introduce Grade I students to basic geometric shapes such as circles, squares, triangles, and rectangles through interactive and hands-on activities that promote understanding and identification, the teachers engaged the students in fun activities. To make learning about shapes fun and memorable, the students also recited rhymes and sang songs on shapes along with their teachers who taught them the characteristics of shapes.

This activity fostered a deeper understanding of shapes and helped develop their observation and cognitive skills in a fun and engaging way.

## A Message Of Encouragement And Support

Assessment plays a significant milestone in every student's life, marking a culmination of months of hard work, learning, and dedication. The pressure to perform well can be overwhelming, but it's essential to remember that exams are just one part of the journey, not the destination. As exams approach, it's crucial to encourage students with positivity, motivation, and reassurance. The teachers of Grades I and II gave the students a few Exam Tips for their upcoming Term I assessment and reminded them that they are well-prepared, resilient, and capable of great things. Teachers motivate students to prepare well for their exams by staying calm and believing in themselves, balancing their studies by self-care, and being focused.

The teachers prepared beautiful charts wishing students "Good Luck" for their assessment which just said, "Stay positive, give it your best, and remember – you are more than the marks on a paper".
