

**LEAF PRINTING**

**" Art is the child of nature in whom we trace the features of the mother's face. "**  
**- Henry Wadsworth Longfellow**

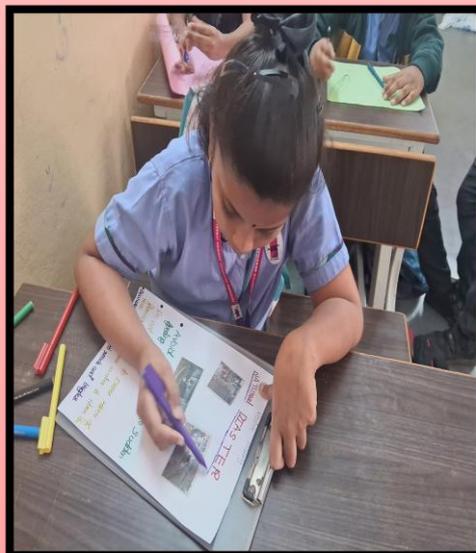

Leaf printing is a wonderful blend of art and nature that allows children to explore their creativity while learning about the environment. In this activity, students collected leaves of various shapes and sizes, coated them with paint, and pressed them onto paper to create beautiful prints. Each leaf print is unique, capturing intricate vein patterns and natural textures. This hands-on experience not only nurtured artistic expression but also developed fine motor skills and observation abilities. Students became more aware of the diversity in plant life and gained a deeper appreciation for nature's design. It fosters a sense of calm and mindfulness, as children engage closely with natural elements.

## DISASTER RISK MANAGEMENT

"The best preparation for tomorrow is doing your best today."

Students of Grades VI and VII enthusiastically took part in an activity on flood prevention and mitigation measures. They designed creative posters highlighting solutions like afforestation, proper drainage, and early warning systems. The activity aimed to build awareness about flood safety and environmental care. It fostered critical thinking and responsibility among students, helping them understand the importance of protecting communities from natural disasters.

## OIL BOARD CAMPAIGN

**"A healthy outside starts from the inside."**

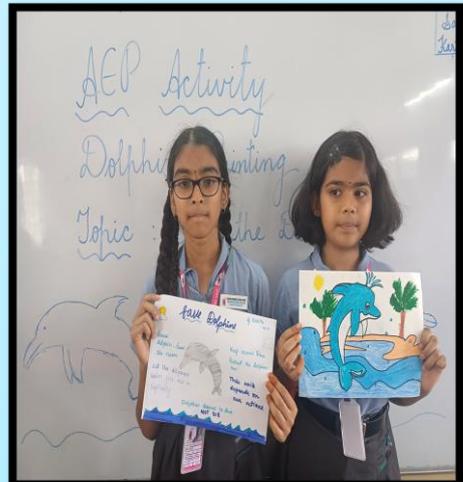

As part of the Oil Board Campaign, a poster-making activity was organized to promote the message of a healthy lifestyle. Students creatively designed posters showcasing the importance of choosing healthy oils, maintaining a balanced diet, and adopting fitness routines. The posters highlighted tips like using less oil in cooking, avoiding fried foods, and staying active every day. This engaging activity helped spread awareness about heart health and overall well-being. It encouraged students to make informed food choices and embrace healthier habits for life.

## SAVE DOLPHINS

"The voice of the sea speaks to the soul."

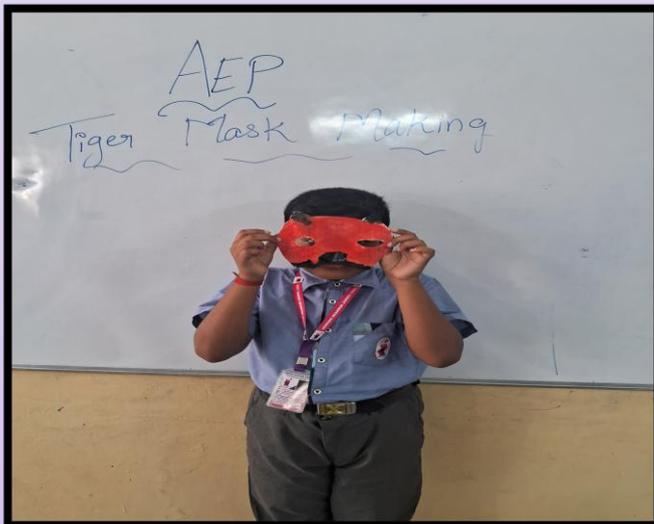

"Save Dolphins" drawing activity was organized to spread awareness about the importance of protecting dolphins and their marine habitat. Students enthusiastically participated by creating beautiful and meaningful artworks showcasing dolphins in their natural environment. Through their drawings, they highlighted the threats dolphins face due to pollution, fishing nets, and habitat destruction. The activity not only nurtured creativity but also educated students on marine conservation. It inspired them to care for ocean life and become voices for the voiceless in nature.

## SAVE TIGERS

" When we protect tigers, we protect the whole ecosystem."

On the occasion of International Tiger Day, a mask-making activity was organized to raise awareness about tiger conservation. Students creatively designed tiger-themed masks using eco-friendly materials, showcasing their artistic skills and love for wildlife. The activity served as a fun yet meaningful way to educate students about the importance of saving tigers and protecting their natural habitats. Through this initiative, learners were encouraged to become responsible citizens and contribute to preserving our national animal. The event fostered creativity, awareness, and environmental responsibility.

## BONALU CELEBRATIONS "Culture is the widening of the mind and the spirit."

Bonalu celebration was held with great enthusiasm, showcasing the rich cultural heritage of Telangana. Students dressed in traditional attire performed folk dances and sang devotional songs in praise of Goddess Mahakali. The event highlighted the significance of Bonalu, a festival that symbolizes gratitude, devotion, and community spirit. Decorative pots, rituals, and vibrant performances created a festive atmosphere, helping students connect with their cultural roots. The celebration instilled values of respect for tradition and unity in diversity, making it a memorable experience for all.

## WORLD POPULATION DAY

"The power of population is indefinitely greater than the power in the earth to produce subsistence for man."- Thomas Robert Malthus

World Population Day is observed every year on July 11<sup>th</sup> to raise awareness about global population issues. This day reminds us of the urgent need to address the challenges posed by a rapidly growing population.

The students of Grade VI performed a skit highlighting the impact of a growing population on resources like food, water, energy, and shelter. Overpopulation can lead to poverty, unemployment, environmental degradation, and a strain on health and education systems. They also presented thought-provoking slogans, reflecting the importance of sustainable development, responsible choices, and collective efforts to ensure a better future for generations to come.

## HERBARIUM ACTIVITY

"Look deep into nature, and then you will understand everything better."

Students engaged in the Herbarium activity to explore plant diversity and ecological awareness. They collected, dried, and labelled different plant specimens, learning about their scientific names, families, and medicinal or ecological value. This hands-on task enhanced observation, research, and documentation skills, while fostering a deeper connection with nature. The project encouraged students to appreciate the role of plants in our lives and the need to protect biodiversity.
