FIELD TRIP TO DEER PARK: "When Nature Thrives, We Survive!"

A delightful educational field trip was organized for the students of Grade III to the serene and verdant **Deer Park**. Bursting with excitement and curiosity, the young learners embarked on this outdoor learning journey to witness animals in their natural habitat. Amidst lush greenery, fresh air, and the soothing sounds of chirping birds, students were thrilled to observe various species of deer gracefully grazing and playfully interacting. They also spotted a variety of native birds, towering trees, and unique plant life. Teachers guided them through the experience, sharing valuable insights about biodiversity and the importance of **wildlife conservation**. Following an engaging exploration, the students enjoyed a short refreshment break before heading back, their hearts full of joy and their minds enriched with unforgettable memories and a renewed sense of responsibility towards preserving nature.

EVS ACTIVITY - MY FAMILY

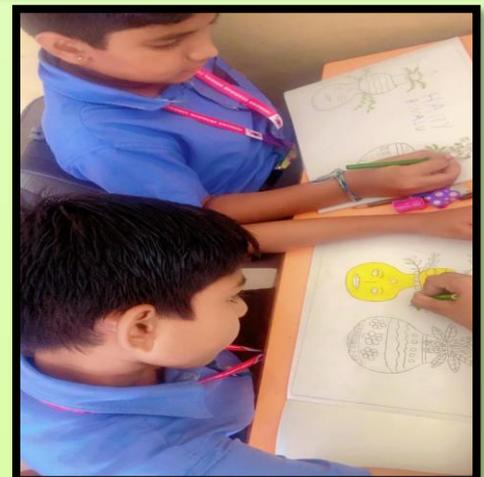

"Together is My Favourite Place - That's Family!"

As part of the EVS Subject Enrichment Activity (SEA), Grade III students participated in a heartfelt exercise titled "My Family" to express their love, respect, and appreciation for their families. The activity encouraged students to draw vibrant illustrations of their family members and pen down meaningful quotes reflecting what family means to them. The artwork brimmed with warmth, emotion, and creativity, capturing the unique connections students share with their loved ones. Each drawing was a colorful celebration of togetherness, while the accompanying quotes added a deeply personal and thoughtful layer – expressing sentiments of love, care, security, and gratitude. This activity not only nurtured emotional intelligence but also reinforced the value of family as a strong foundation in every child's life

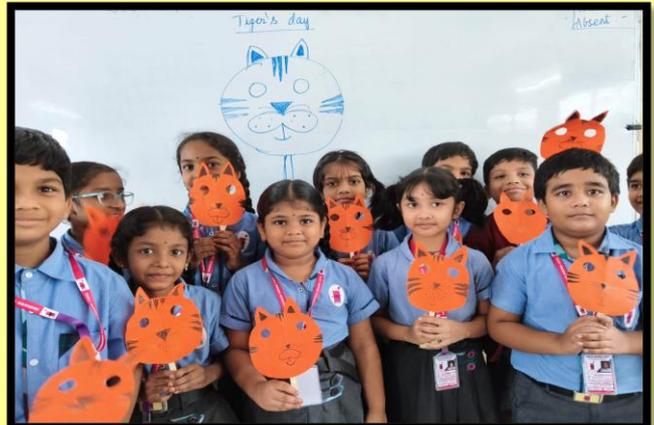

"Bonalu - Tradition in Every Pot, Happiness in Every Heart!"

As part of the vibrant Bonalu celebrations, our Grade III students enthusiastically engaged in a culturally immersive art activity. They illustrated and adorned traditional Bonalu pots, using a rich palette of colours, intricate patterns, and decorative embellishments to bring their creations to life. This hands-on experience not only allowed the young learners to showcase their creativity and fine motor skills but also deepened their understanding of the cultural and spiritual significance of the Bonalu festival. Through the lens of art, they joyfully explored the essence of tradition and community spirit. The activity infused the atmosphere with festive energy, leaving students and teachers alike with a sense of pride and cultural connection. It was truly a celebration of colour, creativity, and culture.

INTERNATIONAL TIGERS DAY
"Let the Tiger Roar, Don't Let It Disappear!"

Our school enthusiastically celebrated International Tiger Day to spread awareness about the urgent need to protect and preserve this magnificent creature. Students of Grade III participated in a vibrant and engaging activity – crafting tiger face masks using various art materials. Alongside the creative fun, they also discovered fascinating facts about tigers, their natural habitat, and their significance in the wild. This celebration served as a powerful reminder of our responsibility toward safeguarding endangered species. It was an enriching experience that not only fostered creativity but also inspired young minds to develop empathy for wildlife and take small steps towards conservation. As we roared into action, the message was loud and clear – **Let's protect our tigers before they become tales of the past.**

Celebrating Van Mahotsav - A Step Towards a Greener Tomorrow "Tree by Tree, We Can Change the World"

Students of Grades III, IV, and V participated with great enthusiasm in a sapling plantation drive organized as part of Van Mahotsav celebrations. The initiative aimed to instill a deep sense of environmental responsibility and awareness among young learners. Armed with small shovels and saplings, the students eagerly took part in planting activities, learning firsthand the vital role trees play in preserving ecological balance. Through this hands-on experience, they discovered how trees act as Earth's lungs – producing oxygen, conserving soil, regulating temperature, and providing shelter to countless species. The activity beautifully integrated concepts from science, social studies, and environmental education, making it a true example of experiential and interdisciplinary learning. Their eyes sparkled with curiosity and care, reflecting an emerging sense of stewardship. The plantation activity served as a reminder that even small actions can make a significant difference, and that every child can be a guardian of the Earth.

GURU TREASURE OF KNOWLEDGE "Guru: The Light, The Guide, The Treasure"

The Grade V- students delivered a heartwarming and insightful assembly presentation on the theme "Guru - Treasure of Knowledge." The event celebrated the invaluable role of gurus (teachers and mentors) in shaping lives through wisdom and guidance. The assembly began with a graceful and energetic dance performance that set a reverent and joyful tone. Through expressive movements, the students beautifully conveyed their respect and gratitude for the knowledge passed down by gurus across generations. Students shared reflections on the importance of gurus in our lives. They highlighted how teachers are not only academic guides but also moral and spiritual mentors who help us grow into better individuals. The presentation emphasized that the bond between a student and a guru is sacred and transformative.

The assembly left a lasting impression on the audience, reminding everyone of the deep-rooted cultural and spiritual significance of gurus.

NATIONAL FLAG DAY "One Nation, One Flag, One Spirit!"

The students of Grade IV presented a poignant and impactful assembly on the occasion of Flag Day, paying a heartfelt tribute to the National Flag – the emblem of our unity, pride, and sovereignty.

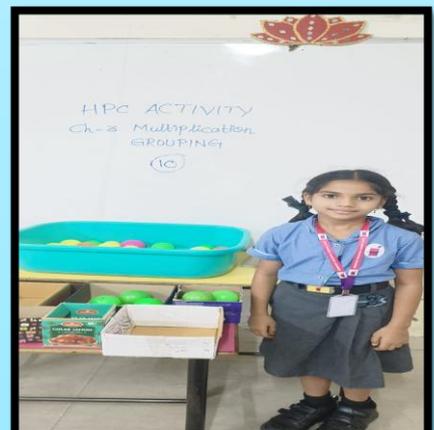

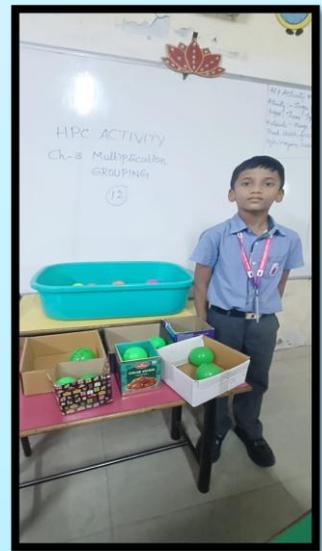

The assembly featured a vibrant patriotic dance and a thought-provoking skit that underscored the significance of the tricolour in our nation's identity. Through their spirited performances, the young learners not only celebrated the glory of the Indian flag but also inspired the audience to uphold its honour with reverence. The entire atmosphere was imbued with patriotic fervour, as students eloquently expressed their deep respect and unwavering pride for the motherland. The assembly served as a powerful reminder of our collective responsibility to cherish and protect the values our National Flag represents

MATH HPC ACTIVITY

"Hands-On Math: Counting, Grouping, Multiplying!"

Students of Grade IV enthusiastically engaged in a hands-on and interactive HPC Math activity focused on the concept of multiplication. Through a creative exercise involving the grouping of balls into baskets, learners demonstrated repeated addition tangibly and enjoyably. When given a number by the teacher, students accurately placed the corresponding number of balls into baskets, effectively representing multiplication as repeated grouping. This experiential approach not only made the abstract concept of multiplication easier to grasp but also made the learning process lively and engaging. The activity promoted collaboration, sharpened their counting and grouping abilities, and enhanced their mathematical thinking. By visualizing multiplication in this manner, students developed a deeper conceptual understanding and strengthened their foundational numeracy skills.

FLOOD PREVENTIVE MEASURES COLLAGE MAKING ACTIVITY.

"Flood prevention starts with you."

Students of Grade IV and V actively took part in a collage-making activity on the theme of flood prevention. Using cut-outs, drawings, and recycled materials, they creatively showcased ways to prevent floods, pasted on charts, such as planting trees, building proper drainage systems, and avoiding plastic waste. The activity sparked meaningful discussions on environmental safety and the role each individual plays in disaster prevention. It was a wonderful blend of creativity and awareness. Collage making engages students in a hands-on activity, making learning fun and interactive. Students think critically about flood prevention strategies and represent them creatively. Students developed a holistic understanding of flood prevention and its relevance to different areas of life.

DOLPHIN CONSERVATION POSTER MAKING ACTIVITY

"Every small action counts in dolphin conservation; together, we can make a **difference.**" Our grade IV and V students participated enthusiastically in a poster-making activity focused on dolphin conservation. With vibrant colours and powerful messages, they highlighted the need to protect dolphins from pollution, habitat loss, and hunting. Through their creative posters, students raised awareness about the importance of marine life and how dolphins play a vital role in maintaining the ocean ecosystem. The activity inspired empathy and responsibility towards protecting aquatic animals. Students learned about the importance of protecting marine ecosystems and the role of dolphins within them. Dolphin conservation can be incorporated into various subjects like science, social studies, and language arts. Students developed sustainable practices and habits that can benefit the environment and its inhabitants.
