

CROWN ACTIVITY WITH DESCRIBING WORDS "I hear, I forget. I see, I remember. I do, I understand."

Reflecting the essence of the above quotation, our Grade II students enthusiastically participated in a captivating "SEA Activity of Adjectives - Crown Activity," designed to seamlessly integrate learning with creativity. Each child crafted and adorned a vibrant paper crown, embellishing it with carefully chosen adjectives that sparkled like precious gems. This engaging exercise not only expanded their vocabulary but also demonstrated the power of descriptive language in making writing vivid and expressive. The crowns, adorned with colorful patterns and cheerful words, became a magnificent showcase of the students' imagination, artistic flair, and growing mastery of the English language.

TEACHERS DAY ACTIVITY

“A good teacher can inspire hope, ignite the imagination, and instil a love of learning.”

On the occasion of Teacher’s Day, as a mark of respect and love, the little artists students of GR I & II participated in a special **Handprint Activity** to express their love and gratitude towards their teachers. Each student dipped their hands in bright colours and made a handprint impression on a large chart paper. After placing their handprint, they proudly wrote their signatures or names below it, making the artwork personal and meaningful. The final artwork became a beautiful tribute to the teachers who guide them with patience.

“My little handprint bright and true..Is a tiny “THANK YOU” just for you.”

The collective handprints formed a beautiful collage symbolizing unity, respect, and appreciation for teachers. The colourful display became a heartfelt token of students’ affection and a memorable tribute to their mentors. This activity not only encouraged creativity but also strengthened the bond between teachers and students, making the celebration lively and joyful.

EXAM READINESS TIPS ACTIVITY

Exams are not about being perfect, but about doing your best with honesty and hard work!

To help children feel confident and stress-free before their examinations, a special Exam Tips Activity was conducted. The teacher began by engaging students in a short discussion on why exams are important, highlighting that they are not just tests, but opportunities to show what they have learned. The activity helped children to understand the importance of exams as a step toward progress and built their confidence to face them with a positive attitude. To make the activity more engaging, teachers prepared small posters and drawings showing exam tips (like "Sleep well," "Revise daily," "Keep your things ready," "Stay positive"). This allowed them to visualize exam readiness creatively.

BATHUKAMMA ACTIVITY

“Creativity is the intelligence of having fun.”

To celebrate the spirit of tradition and culture, students of Grades I and II participated in a Bathukamma-making activity with traditional attire. Using a variety of real flowers in vibrant colours, children arranged them in layers to create a beautiful Bathukamma. This activity was done collectively, where each child contributed by bringing flowers, arranging them carefully, and adding to the floral stack. The activity not only introduced our young students to the importance of Bathukamma, a festival symbolizing gratitude towards nature, but also gave them hands-on experience in teamwork, creativity, and cultural learning. The final floral arrangement looked bright and festive, filling the atmosphere with joy and fragrance. This simple yet meaningful activity helped children appreciate the beauty of flowers, traditional values, and the joy of working together.
