

## VISIONARY VISTAS- DREAM AND DISCOVER

**“Learning is not the product of teaching; learning is the product of the activity of learners.”**  
The Socio Science Exhibition Visionary Vistas, with the theme food pharmers which, served as a lively platform for our young learners to explore and showcase their talents through a variety of carefully designed models and projects. The exhibition offered a great opportunity for young learners to confidently present their ideas, foster critical thinking, and share their creativity with a broader audience, making learning both meaningful and hands-on.

## WHEN PLAY BECOMES LEARNING

**“Play is our brain’s favourite way of learning.”**

As a part of an engaging kinesthetic learning experience, the Pre-Primary students enthusiastically participated in the DIY Vehicle Activity. This hands-on project introduced children to the exciting world of creating vehicles, ranging from simple toy cars, using a variety of recycled materials. Under the careful guidance of their teachers, the little learners explored, designed, and assembled their own models, transforming imagination into reality. The activity not only nurtured creativity and fine motor skills but also sensitized students to important moral values such as cost-effectiveness, resourcefulness, convenience, and quality consciousness.

**PINK POWER, EVERY HOUR**  
"The colour pink makes everything look pretty."

Pink Colour Day was celebrated with great enthusiasm and cheer, filling the campus with warmth and happiness. The day was dedicated to introducing our tiny tots to the colour pink and helping them recognize its presence in their surroundings, along with its positive and pleasant associations. Through engaging, hands-on activities, the students of the pre-primary classes enthusiastically created adorable pink paper bunnies. This joyful craft activity not only enhanced their creativity but also helped in the development of their cognitive abilities and fine motor skills. The celebration made learning colourful, meaningful, and memorable for our young learners.

## A DAY OF SMILES, FUN, AND WONDER

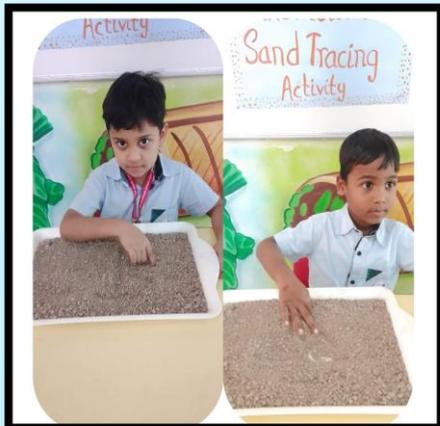

**"The earth reveals its innocence through the smiles of children."**

Children's Day, is a joyous occasion that honours childhood and underscores the importance of nurturing children's education, well-being, and future. Students actively participated by helping teachers to create beautiful paper bouquets, symbolising love, gratitude, and respect for childhood. The celebration served as a gentle reminder that every child deserves a safe, happy, and supportive environment to grow, dream, and flourish.

## DEVELOPING FINE MOTOR SKILLS THROUGH SAND TRACING

Sand tracing is a delightful and hands-on learning activity that effectively nurtures fine motor development in pre-primary students. As children trace shapes, letters, and numbers in soft sand, they strengthen hand-eye coordination, finger control, and pincer grip, essential foundations for early writing skills. Through playful exploration, children gained confidence, improved focus, and developed precision in movement. Sand tracing beautifully blends learning with fun, making skill-building an enjoyable and meaningful journey for young learners.

## PICNIC-A DAY OF GIGGLES AND GAMES

The students of the Pre-Primary section enjoyed a fun-filled picnic at Sim Sam Play Town. Through various play activities, they learned the importance of teamwork, sharing, and playing together. They also practiced holding hands and moving safely as a group, which helped build cooperation and care for one another. Overall, it was a happy and memorable learning experience for the little ones.

From bouncing on trampolines and zooming down slides to tossing balls into pools and solving engaging puzzle games, every moment was filled with excitement and discovery. Laughter echoed all around as friendships grew stronger and smiles grew brighter. Indeed, it was a day brimming with happiness, camaraderie, and memories that will be cherished for a long time!

## WHEN LINES COME ALIVE THE MAGIC OF SCRIBBLE ART

**“Every child is an artist; imagination begins where rules end.”**

Scribble Art is a joyful and engaging art-integration activity that invites children of all ages to explore creativity without boundaries. Using simple lines, shapes, and colours, students transform random scribbles into meaningful and imaginative masterpieces. The beauty of Scribble Art lies in its freedom—there are no rules, only endless possibilities guided by imagination. Our little artists began their journey with playful scribbles, thoughtfully enhancing them with shapes, patterns, and vibrant hues. The students proudly shared their creations, leaving us truly amazed by their originality and expressive skills. It was a delightful day filled with art, joy, and self-expression. Scribble Art proved to be not just an art activity, but a celebration of imagination and individuality.

## LITTLE HANDS, BIG THANKS

*"Gratitude turns what we have into enough."*

Spreading love and appreciation, one card at a time, our young learners joyfully created heartfelt Thanksgiving cards for our school staff who selflessly serve us every day. With bright smiles and sincere words, the children expressed their gratitude for the dedication, care, and support these everyday heroes extend to our society. Through this meaningful activity, they learned that even small gestures can create a big impact. Each card was crafted with care, reflecting respect, gratitude, and a deep sense of social responsibility. We are immensely proud of our little ones for embracing these values and taking a beautiful step toward becoming compassionate and grateful citizens of tomorrow.
