

CLEANLINESS IS NOT A HABIT , IT IS A WAY OF LIFE

“A clean mind and a clean environment lead to a beautiful life.”

Grade III F Students presented a beautiful assembly on ‘Cleanliness is next to godliness.’ Cleanliness is not just about keeping our surroundings neat; it reflects discipline, respect, and responsibility. A clean environment helps us stay healthy, focused, and positive. When we keep our classrooms, homes, and school campus clean, we create a space where everyone can learn and grow happily. Personal cleanliness – like washing hands, wearing tidy uniforms, and maintaining good hygiene – also protects us from diseases and shows respect for ourselves and others. Let us pledge to be role models of cleanliness and inspire others through our actions.

READING IS A SUPER POWER

“Reading turns ordinary minds into extraordinary heroes.”

A wonderful truth – reading is a superpower. Just like superheroes use special abilities to change the world, reading gives us the power to explore, imagine, and grow. Our Grade III A Students have performed assembly that every book opens a new door to knowledge, creativity, and endless possibilities. When we read, we travel to faraway places, meet new characters, and learn important lessons without ever moving from our seat. Reading strengthens our mind, improves our language skills, and helps us think deeply and clearly. It teaches us empathy, confidence, and curiosity – qualities every hero needs.

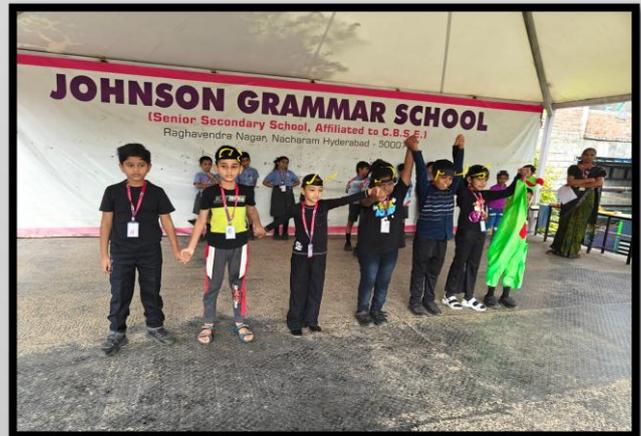

Let us make reading a daily habit and inspire others to discover its magic too. Remember, the more we read, the stronger our superpower becomes.

TEAM WORK MAKES THE DREAM WORK

“Alone we accomplish little, but together we achieve greatness.”

Grade III F Students presented a beautiful assembly on teamwork, which reminds us of a powerful lesson: teamwork makes the dream work. When people come together, share ideas, and support one another, even the biggest goals become achievable. Teamwork teaches us cooperation, patience, respect, and trust. In school, whether we are completing a group project, playing a sport, or organizing an event, working as a team helps us perform better and learn from each other. Let us remember that no one succeeds alone – great things happen when we work together. So, let us practice teamwork at home, in class, and in our community.

THE CONSTITUTION DAY

“The Constitution is not just a document – it is the voice of the nation and the guardian of our freedom.”

Grade III F Students presented a beautiful assembly on the constitution day ,a day of pride, respect, and gratitude toward the guiding principles of our nation. On this day in 1949, the Constituent Assembly adopted the Constitution of India, which came into effect on 26th January 1950. Our Constitution is more than a book of laws – it is the soul of our democracy. It protects our rights, guides our duties, and ensures justice, equality, and freedom for every citizen. As students and future citizens, it is our duty to follow these values in our daily lives. Let us honour this day by being responsible, respectful, and aware of our rights and duties.

“GRATITUDE TURNS ORDINARY MOMENTS INTO BLESSINGS.”

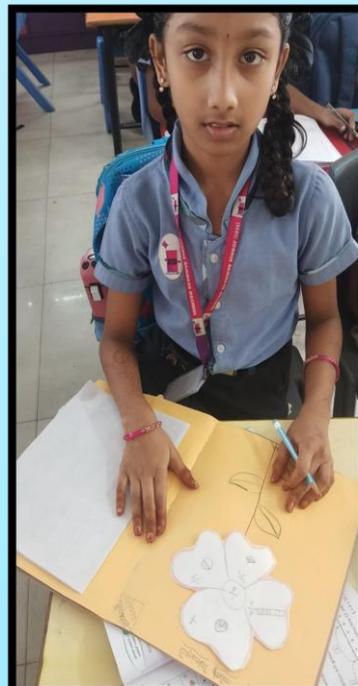

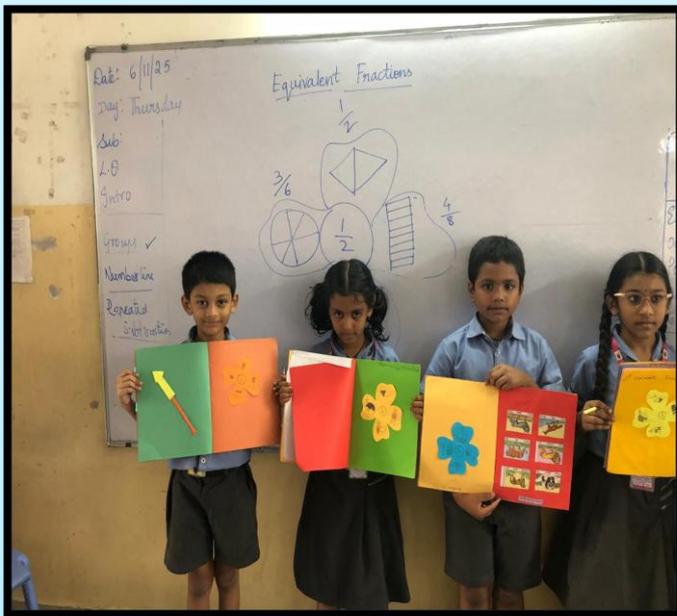

Grade III Students presented a beautiful assembly as it highlights a simple yet powerful value – gratitude. Gratitude means appreciating the good things in our lives and expressing thanks to the people who help, guide, and support us. When we say “thank you,” we spread positivity, kindness, and respect. It strengthens relationships and reminds us to focus on what we have rather than what we lack. A grateful heart creates happiness not only for others but also for ourselves. Let us practice gratitude every day – through words, actions, and a positive attitude. Remember, even the smallest “thank you” can brighten someone’s day and build a culture of kindness.

ACTIVITY ON FRACTIONS

“Fractions are pieces of a whole, just like every small effort builds great learning.”

Fractions help students understand that math is not just about numbers – it is about real-life learning. Fractions are all around us: in a slice of pizza, a piece of chocolate, a half glass of juice, or even when we divide time between study and play. Through this hands-on activity, students explored how to identify, compare, and represent fractions using everyday objects. By cutting shapes, sharing items, and working in groups, children learned that fractions are simple, logical, and fun. This activity also encouraged teamwork, problem-solving, and creative thinking. When students learn with their hands and minds together, mathematical concepts become clearer and more enjoyable.

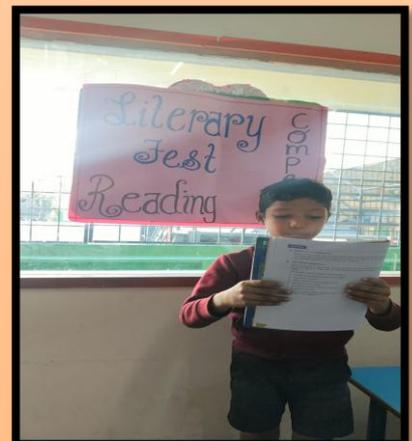

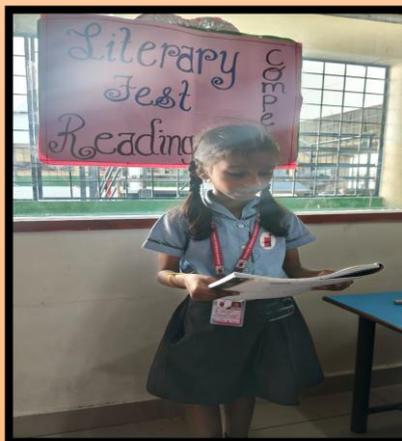

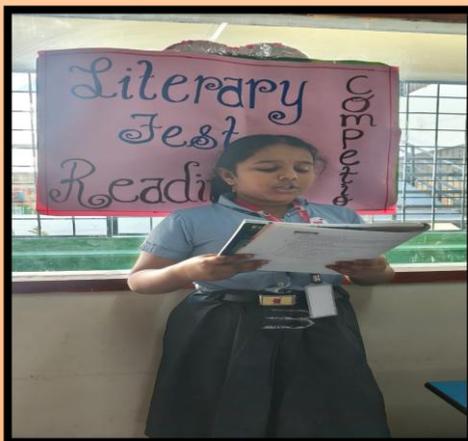

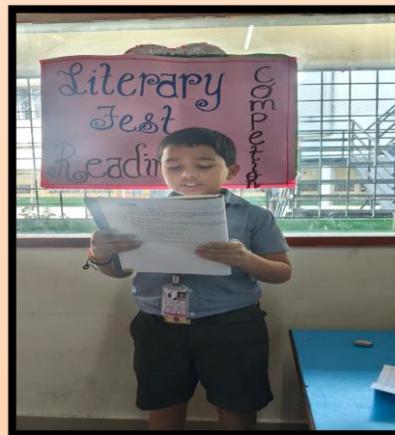

READING COMPETITION

“Reading is not just a skill – it is a doorway to endless learning.”

Our school organised an exciting Reading Competition to encourage students to develop a love for books and improve their reading skills. The event aimed to build confidence, fluency, expression, and comprehension among students. Participants read stories, poems, and short passages with enthusiasm, clarity, and proper pronunciation.

The competition created a joyful atmosphere where students discovered the magic of reading while learning to express emotions through their voice and pace. Teachers appreciated the efforts of all participants and guided them on how to read with confidence and understanding. The event also motivated students to read regularly at home and in school. Every participant was a winner because they took a step toward becoming confident readers.

PICNIC
Dino World
Roaming With Dinosaurs , Smiling With Friends

The grade III students had a wonderful picnic at Dino World. They explored life-sized animatronic dinosaurs, enjoyed thrilling water slides, played in the adventure zone with obstacle courses, and had fun at the playground with swings and trampolines. The outing gave them an exciting opportunity to learn about dinosaurs while having enjoyable physical activities. The children also relished a delicious lunch buffet, which made the day even more special. They also took part in water-based fun like water slides and a wave pool, which helped them beat the heat while staying active. This picnic supported experiential learning by engaging the students in a dynamic environment where they could connect classroom knowledge about dinosaurs and history with real visual and tactile experiences.

HANDWRITING COMPETITION - WINNERS

As part of the **Johnson Book Fest**, students of **Grade III** enthusiastically participated in a **Reading Competition**, while **Grades IV and V** showcased their skills in a **Handwriting Competition** conducted with great zeal. The event aimed to nurture clarity, neatness, and precision, encouraging students to focus on letter formation, spacing, legibility, and overall presentation. The young participants displayed remarkable concentration and dedication, putting forth their best efforts. Judging was carried out with great care, and certificates and awards were presented to outstanding performers. The competition not only fostered healthy competition but also reinforced the importance of reading and good handwriting as essential communication skills.

CHILDREN'S DAY

Celebrating Childhood Joy: A Day of Laughter, Dreams, and Endless Wonder!

Children's Day was celebrated with a special assembly conducted by teachers who performed singing and dancing to engage the students. Throughout the day, students participated in various games and activities alongside teachers, making the celebration joyful and lively. The special assembly featured teachers performing songs and dances that delighted the students and created a festive atmosphere. Following the assembly, students enjoyed a full day of games and activities organized by teachers, including team games that fostered cooperation, physical activity, and fun. This strengthened the bond between teachers and students through shared celebratory experiences.

TINY EXPLORERS ON A BIG ADVENTURE AT DINO WORLD

The grade IV students had a wonderful picnic at Dino World. They explored life-sized animatronic dinosaurs, enjoyed thrilling water slides, played in the adventure zone with obstacle courses, and had fun at the playground with swings and trampolines. The outing gave them an exciting opportunity to learn about dinosaurs while having enjoyable physical activities. The children also relished a delicious lunch buffet, which made the day even more special.

They also took part in water-based fun like water slides and a wave pool, which helped them beat the heat while staying active. The adventure zone offered high ropes, obstacle courses, and zip lining, further developing their physical skills and confidence. This picnic supported experiential learning by engaging the students in a dynamic environment where they could connect classroom knowledge about dinosaurs and history with real visual and tactile experiences. The physical activities also encouraged teamwork, coordination, and fitness. Overall, the trip blended education and recreation, making learning memorable for the students.

EKTA DIWAS

"Let us celebrate diversity and stay united in heart and mind."

Ekta Diwas, or National Unity Day, is celebrated to remind us about the importance of unity in our country. One fun way to celebrate is by making badges that show messages of unity. Students did create badges using coloured paper, markers, and pins. They did write slogans like "Unity is Strength" or "We Stand Together" and decorated them with drawings of the symbols of togetherness. Wearing these badges in school helps everyone remember the value of unity and shows that we are proud to be part of one nation. Making badges is not only creative but also spreads a message of harmony and friendship among students.

TRADITIONAL INDOOR GAMES

“Games played together build minds, hearts, and values.”

Students joyfully participated in indoor traditional games such as chess, ludo, and marbles, reliving the charm of age-old ways of playing. These games not only brought excitement and fun but also helped children understand the importance of strategy, patience, teamwork, and fair play. Through friendly competition, students learned the true spirit of sportsmanship, respecting rules and celebrating both winning and losing gracefully. Overall, it was a wonderful experience that connected children to tradition while nurturing essential life skills.

SOCIO- SCIENCE EXHIBITION A Journey of Discovery and Innovation Unfolded!"

The Science Exhibition for Grades III, IV, and V was held with great enthusiasm and active participation from our students. The event provided an excellent platform for them to explore their scientific curiosities and showcase their creativity through various projects and models. The exhibition was well-attended by parents and peers who admired the dedication and hard work displayed by the students.

Each participant confidently presented their ideas, fostering an environment of learning and inspiration for all. The event not only highlighted the students' understanding of scientific concepts but also encouraged teamwork, critical thinking, and innovative exploration.

It was an enriching experience that brought together the school community to celebrate young minds thinking creatively and analytically.

PICNIC
"GOOD VIBES AND GREAT TIMES."

Picnics offer a vital break from routine classroom learning, allowing students to connect with nature, reduce stress, and recharge their minds amid fresh air and greenery. Our Grade V students embarked on an exhilarating picnic to Celebrity Resort, a scenic heaven near Hyderabad known for its lush landscapes and adventure amenities. The day unfolded with thrilling water slides, zip-lining, and pool games that filled the air with laughter and excitement for all participants. The picnic concluded with ecstatic students returning home, brimming with stories of adventure and newfound friendships, eager for more such enriching experiences.
