

GRADUATION DAY

“Today’s special moments become tomorrow’s beautiful memories and the beginning of new dreams.”

Graduation Day is a celebration of a meaningful transition from foundational learning to primary school. It marks a joyful and heart-warming milestone in the lives of our Pre-Primary II students.

The pride and happiness of the students were beautifully reflected in their performances. The celebration began with divine blessings for the young graduates. This was followed by a lively Welcome Dance, an entertaining Mobile Skit, expressive Fables & Motion, a touching Mother-Son Performance, skit on Telugu Skit on Connected or Controlled? And a powerful presentation on Women Empowerment performed by our talented toddlers. The highlight of the ceremony was the Graduation Moment, where the students of Pre-Primary II were honoured with graduation certificates, symbolizing their successful completion of the pre-primary stage.

To make the occasion even more memorable, the students were also gifted a beautiful handmade showpiece as a token of love and remembrance.

The event was filled with joy, pride, and excitement, marking the beginning of a new learning journey for our young graduates.

RAINBOW COLOUR DAY

"Like a rainbow after the rain, joy shines brightest when we celebrate together."

Rainbow vibes filled our campus as we celebrated **Rainbow Colour Day** with great enthusiasm and excitement. The school was truly bursting with vibrant colours as students and teachers arrived dressed in beautiful rainbow hues, creating a cheerful and lively atmosphere. The day was filled with fun and creativity. Our **Rainbow Colouring Activity** was a big highlight, where students showcased their imagination through colourful masterpieces. The excitement continued at the **rainbow-themed photo booth**, where everyone captured joyful moments with bright smiles and colourful props. The celebration beautifully reflected the spirit of **diversity, unity, and happiness**, reminding us that just like a rainbow, every colour makes the world brighter and more beautiful.
